

# KORG N364/2

Thank you for purchasing the Korg N364/2 VST instrument.

This stunning synthesizer workstation kind of slipped under the radar with most people, but contains a massive set of beautiful sounds. Lush pads, sweeping synths and guitars that stand out in the mix. This is the second of three VSTs delivering a huge sound set of stunningly useable patches.

Each patch has been meticulously sampled and mapped across the keyboard. You can manipulate the sound envelope, finely adjust pitch, & add a touch of reverb.

If you want to adjust the cut-off and resonance of a sound, you can do this within your DAW using envelopes. The current software limitations prevents me from adding cut-off & resonance controls.

**NOTE: Please place the included fonts into you 'FONTS' folder on your computer. This will show the correct display like what is shown above.**

**To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will automatically be integrated within your setup.**

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to [info@beatmachine.co.uk](mailto:info@beatmachine.co.uk) or find us on Sound Cloud as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*

# PATCH LIST

<b>Group List</b>	
✓ 00-Brush Kit	34-Guitarist
01-Jazz Kit	35-VeloVoxPad
