

Thank you for purchasing the Break Dance VST instrument.

In this VST you will find many gems, including original studio samples from many great Electro Break Dance classics including Shannon, Break Machine & Freeze.

Every included sound has been meticulously sampled and mapped across the keyboard. You can manipulate the sound envelope, pan, pitch and control gain. Reverb and a low pass filter are also included. LFO controls have been added along with voice mode which allows you to choose poly, mono or legato playback.

NOTE: Please place the included fonts into you 'FONTS' folder on your computer. This will show the correct display like what is shown above.

To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will automatically be integrated within your setup.

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to info@beatmachine.co.uk or find us on Sound Cloud as Beat Machine Drum Sample Packs.

Finally, may we ask you to please not illegally share, duplicate or modify this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.
