

Thank you for purchasing the Fairlight III **Strings, Wind & Reeds** VST instrument.

The mid to late 80s brought us the Fairlight CMI III. A huge improvement in sonic quality as this gem gave you 16bit sampling, with a whopping 14mb of RAM, increasing the sample time up to 3 minutes in length.

This instrument offers many of the disks from the Fairlight CMI III.

With the usual nice & easy to use GUI, you can add some symphonic strings, haunting flutes, glissando harps, Scottish bagpipes and sweet reed instruments to your productions.

A Low Pass Filter is included along with Reverb.

NOTE: Please place the included fonts into your 'FONTS' folder on your computer. This will show the correct display like what is shown above.

To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will automatically be integrated within your setup.

For Logic and Sierra users, please download the installation guide which includes the OSX Validation Tool. It can be found on the VST instruments page of the Beat Machine website.

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to info@beatmachine.co.uk or find us on Sound Cloud as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*

PATCH LIST
