

Thank you for purchasing this **MC303 Drum Rack** VST instrument.

The MC303 Drum Rack contains the complete 12 drum sets from the classic MC303 GrooveBox module. Punchy and highly useable classic 90s drum & percussion samples all wrapped up in a simple interface so you can get programming your Dance, Techno, Rave & Hip Hop drum tracks immediately. Extra Rave sounds taken from the drum kits have been mapped so you can use them in your productions.

NOTE: Please place the included fonts into you 'FONTS' folder on your computer. This will show the correct display like what is shown above.

To Install the VSTi: Place the entire folder into your VST plugins folder. When you then start your DAW, it will automatically be integrated within your setup.

For Logic and Sierra users, please download the installation guide which includes the OSX Validation Tool. It can be found on the VST instruments page of the Beat Machine website.

I hope you enjoy this VSTi release.

We are always interested in hearing any productions where you use any of our instruments or samples. Send us a link to info@beatmachine.co.uk or find us on Sound Cloud as Beat Machine Drum Sample Packs.

*Finally, may we ask you to **please not illegally share, duplicate or modify** this instrument in any way. Illegal distribution will only jeopardise future releases. Thank you.*

This is the actual MC303 which was sampled. The drum kits cover the 88 key range & extra rave sounds are included!
